Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner initiated the interview to propose amendments to place the case in condition for allowance. It was apparent to the examiner that page 10, lines 23-27 and page 18, lines 24-30 of the specification indicated important aspects of the invention. The examiner proposed the changes to claim 1 and the addition of claims 23-25 to incorporate these aspects and thereby place the case in condition for allowance. The examiner also proposed cancelling the non-elected inventions. Jenna M. Morrison then authorized the changes to be made by examiner's amendment.
